Kinaxis RapidResponse® digital audit

If you've been using Kinaxis RapidResponse® to plan your supply chain for at least one year, it might be time to check the health of your systems. A digital audit serves as a basis for adjustment and considers multiple objectives, such as:

- > Performance improvements
- > Alignment with your business processes and structure
- > Resource optimization
- > Staying updated on new RapidResponse® functionalities

Our team of supply chain and software experts collaborate with your organization to customize your digital audit to match your objectives. With a three-step project approach, quickly get a full picture of your current system and improvement potential. We even support your organization to implement the identified improvement measures.

A three-step project approach ensures tailored results of your Kinaxis RapidResponse® audit
